Hygienic disposable tips

These tips can help you reduce your concerns about secondary infections in your dentist's office.
Both patients and dentists can safely proceed with care.

disposable tip

Tip for wide area

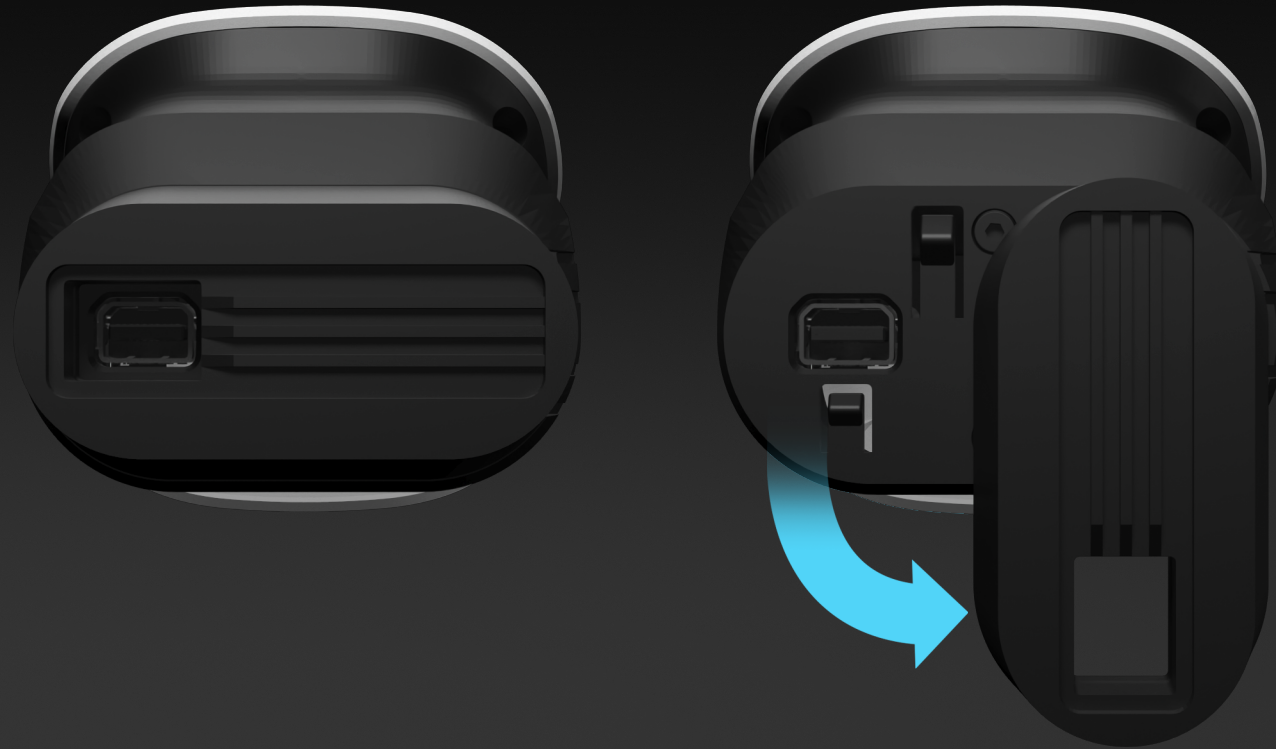

Tip for narrow area

Wired/wireless switchable

If the battery needs charging or the wireless function is not available, you can connect a wired cable to scan.

Commercial batteries available

You can mount commercial batteries that are easy and affordable to buy anywhere. This has the advantage that 'FREEDOM i' can be operated at a very reasonable price.

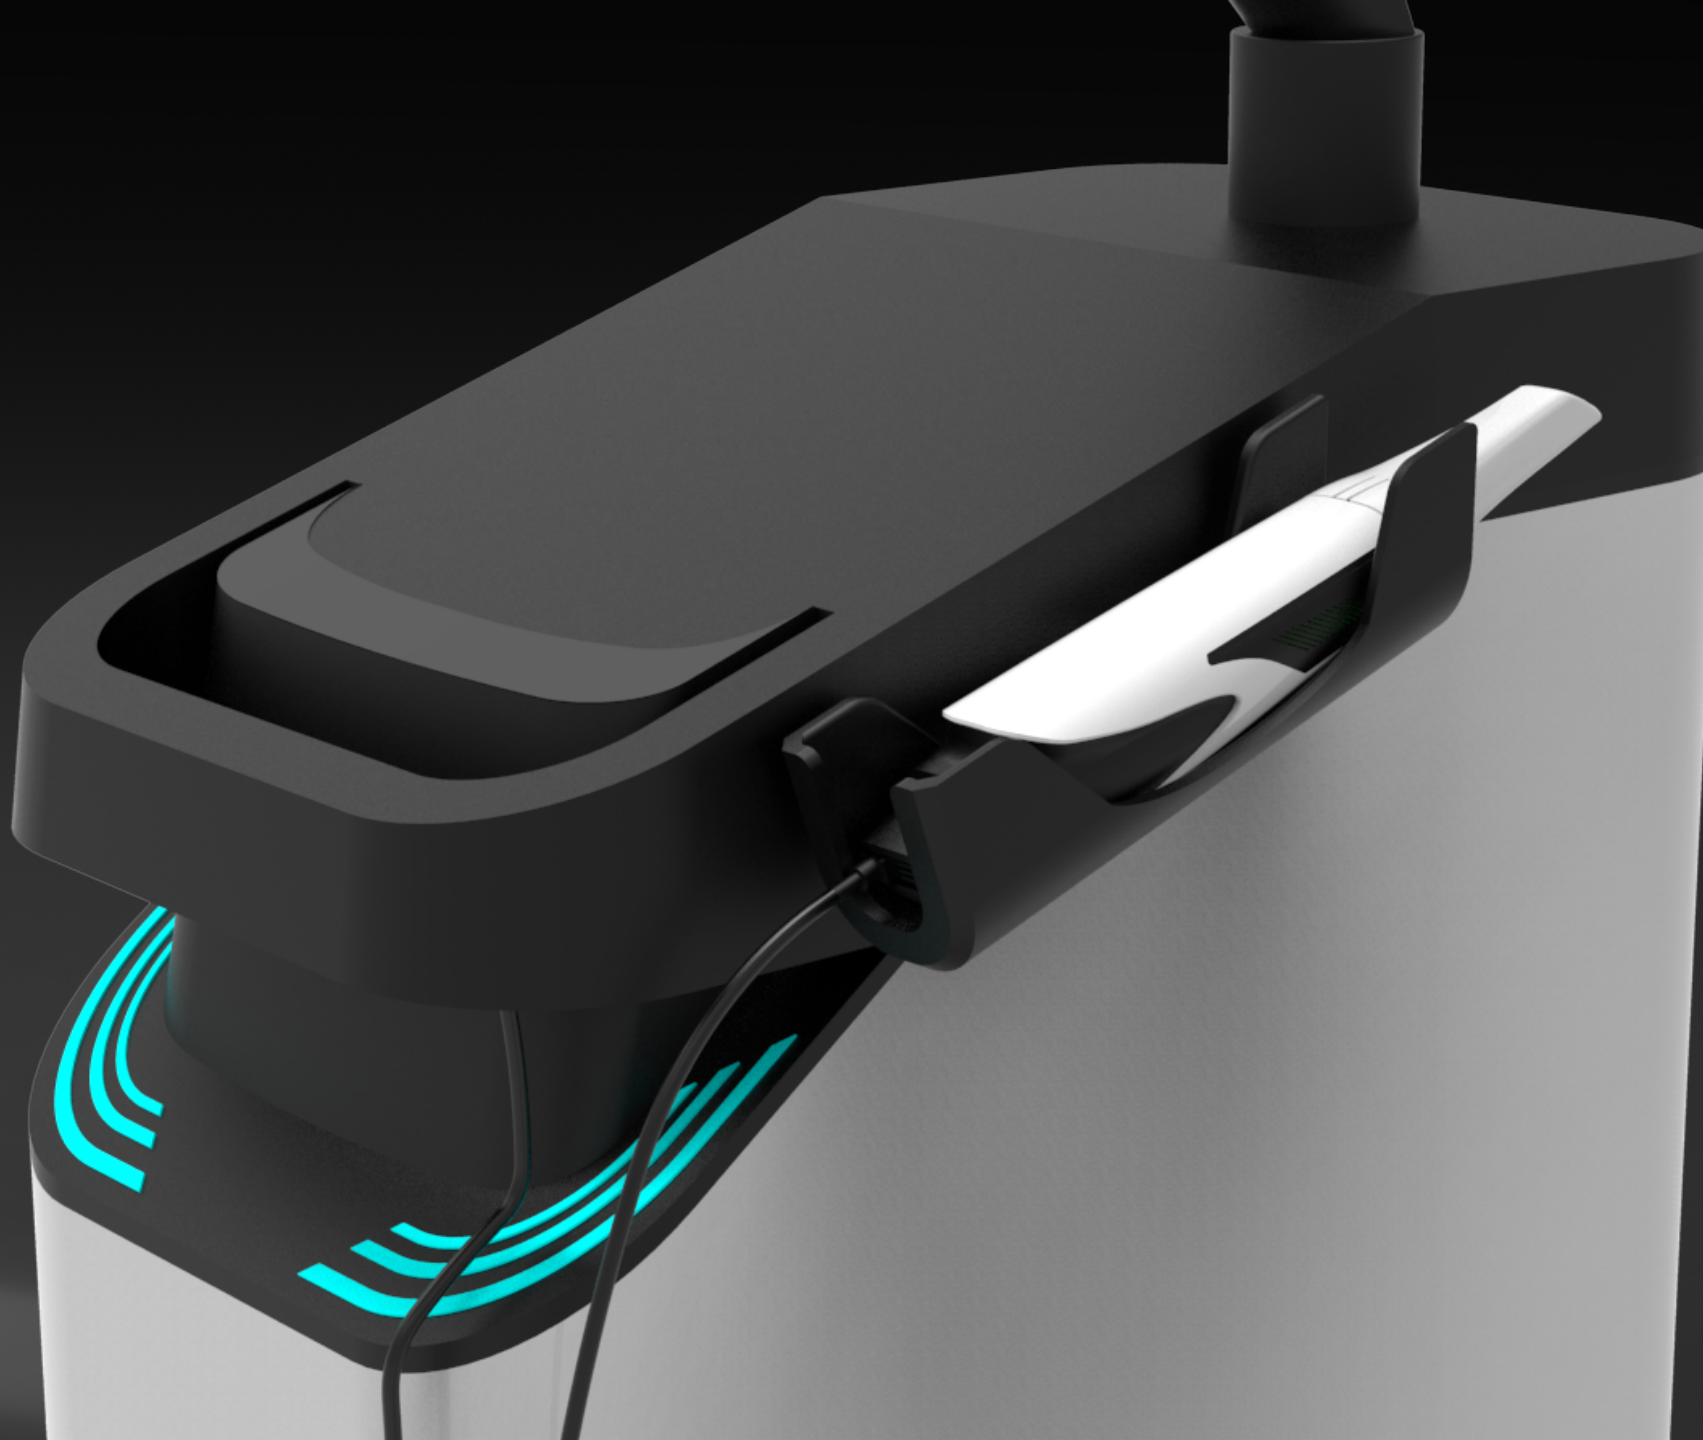

Wide area scan function

This is a patented technology owned by DOF. Full mouse can be scanned precisely.
This is a breakthrough technology that can overcome the limitations of oral scanners.
