

## **S-Man Foundation: Soap Making & Computer Literacy Training Facility/Programs**

**Location: Maryland Center, Barnesville Road, Gardnerville, Liberia, West Africa**

**Website: [www.smanfoundationlibcharity.com](http://www.smanfoundationlibcharity.com)**

In pursuit of our grant funding objective, the S-Man Foundation aims to establish a comprehensive facility and program infrastructure to benefit local communities and vulnerable youth. Our project includes the creation of a Vocational Training Center, offering specialized courses in cold process soap production and computer hardware and software proficiency. Our overarching goal is to empower participants with the skills necessary for entrepreneurial endeavours upon program completion.

### **Key Objectives:**

- Equip individuals aged 14 and above with soap making and computer literacy skills.
- Foster entrepreneurial spirit and reduce unemployment.
- Strengthen civic engagement and commitment to democratic processes and institutions.

**Project Sites: Turning Point, Johnsonville (Montserrado County) Liberia**

**Project Duration: Perpetual Project**

**Project Director: Mr. Samuel Taylor (CEO/Founder of S Man Entertainment)**

**Contact Person in Liberia: Mr. Jarry Blie**

**Total Cost of the Proposed Project: \$227,627.00 (USD)**

**Donation/Contribution Details:** Donation can be made in cash or kind.

### **Brief Introduction of the Organization:**

S-Man Foundation is a non-profit organization officially incorporated on May 2, 2023, with a focus on education, vocational training, humanitarian aid, and community development. The foundation's founder, Samuel Taylor, has a history of empowering youth through entertainment and aims to extend this impact to soap making and computer literacy.

### **Initiative Vision:**

To contribute to the betterment of the global community.

### **Mission Statement:**

To enhance the quality of life by offering accessible education in soap making and computer literacy, fortifying citizens' commercial capabilities to secure a stable income.

**Goals and Objectives:**

- Raise awareness about the economic advantages of soap making.
- Elevate the overall quality of life for program participants.
- Contribute to national poverty reduction and enhance business effectiveness.
- Offer computer literacy education in a rural setting.
- Equip citizens with the skills to establish and manage their own businesses.
- Impart fundamental livelihood skills to both formally educated and illiterate individuals.
- Deliver free educational services to dedicated individuals.
- Promote awareness regarding health, human rights, security, and family planning.

**Issue, Problem, or Challenge:**

High levels of poverty, illiteracy, and limited access to digital facilities in Liberia, especially among women and youth.

**Solution:**

Empower youth with soap making and computer literacy skills to improve their economic prospects and civic engagement.

**Monitoring & Evaluation:**

Regular monitoring and quarterly reports to donors and sponsors.

**Expected Outcomes:**

- Improved livelihoods for program participants.
- Reduced unemployment.
- Enhanced digital skills and entrepreneurial spirit.
- Increased awareness of social issues.

**Budget:**

- Institution Building: \$176,640.00 (USD)
- Computer Training Lab: \$24,865.00 (USD)
- Soap Making Training: \$2,255.00 (USD)
- Soap Making Materials: \$2,192.00 (USD)
- Internet Cafe: \$21,675.00 (USD)
- Total: \$227,627.00 (USD)

**Join us in making a difference in Liberia. Your support will empower youth, promote justice, democracy, and create a brighter future.**
